In fiscal years 1992-1993, private donations totaled \$48 million or 15 percent of the total amount spent to repair/renovate S&E research space. The relative contribution of the Federal government was similar for private (7 percent) as for public institutions (5 percent). However, private institutions received considerably less in constant dollars (\$22 million) than public institutions (\$34 million). In fiscal years 1992-1993, state and local governments provided 5 percent of all S&E research repair/renovation dollars to private universities and colleges.
